

Millions^{180,000,000} of people

- do not have Scripture in their languages
- speak languages that have never been written down
- have limited opportunity for education

He was a thief who learned from an uncle how to harm others through curses and spells. Rejected by his own people, he came seeking medical assistance from an LBT missionary for a festering ulcer on his leg. During his daily visits, the missionary played the Kwanja audio New Testament.

This young man began to change. Over time he healed well, was reconciled to his parents and community, and was baptized. Now he is sharing the Kwanja Scriptures with others, including his troubled brother, and those who cannot hear God's Word in any other language.
