

Thank you for your partnership with LIBTRALO, now in its 25th year of providing printed and digital materials to 15 language communities.

LIBTRALO administration has begun the process of building the professional capacities of staff, starting with IT and media coordinator. Several staff members attended training with IT personnel from Lutheran Bible Translators, concentrating on website maintenance.

Efforts to raise public awareness about the organization's work continues through LIBTRALO's Spotlight on the Truth radio broadcast. Future plans include an emphasis on reaching more churches to acquaint them with translation and literacy efforts in Liberian languages, encourage them to use translated Scripture, and to support LIBTRALO.

The staff of LIBTRALO was honored to attend the dedication of the Gola New Testament in March. Gola church leaders were excited to receive the New Testament, and many Gola speakers will attend literacy classes under the supervision of LIBTRALO. This project is a testament to the high desire for God's Word among the various language communities.

Of course, COVID-19 has caused cancellations and delays of many plans and projects, but morale is high among LIBTRALO's staff. They look forward to implementing new programs and ideas once it is safe to do so.

LIBTRALO

PROGRESS

- Completion of all administrative staff and program duties.
- Implemented staff training for capacity building.
- Continued planning to meet needs of language programs.

GOALS

- Involve more churches in LIBTRALO's work.
- Create awareness through promotional activities.
- Encourage the use of translated Scripture in worship.

PRAYERS

- Pray that projects disrupted by COVID-19 can fully resume.
- Pray that the Gola New Testament will impact the faith and lives of the Gola people.
- Pray for the successful development of new and innovative outreach programs.
