

You heard the problem and responded by supporting the Ministry Vehicle Fund. Thank you! Your gifts are greatly appreciated.

As of this writing, 30% of the funds required to cover the cost of vehicle needs have been raised. Partners in Ethiopia, Sierra Leone, and Nigeria still await safe, reliable transportation to replace older cars or trucks.

That hasn't brought work to a stop, nor has COVID-19. As Rev. Linus Otronyi says, "The virus has brought a lot of changes, but God is unchangeable. He is still at work and has plans for us." Like Rev. Otronyi in Nigeria, language program personnel overseas continue to travel to meet with co-workers when it is safe to do so and communicate via the internet when possible. They look forward to driving new vehicles without travel restrictions, breakdowns or delays to get to the places God sends them.

You've already joined the story, now share it! Encourage anyone you know who would be interested in helping with this urgent need to visit lbt.org/vehiclefund. Working together, we can keep partners on the road and get God's Word in the hands of those still waiting for Scripture in a language they understand.

Vehicle Fund

PROGRESS

- 30% of needed funds raised.

GOALS

- Provide vehicles for four partners in urgent need.
- Maintain sufficient funds to quickly meet future needs.

PRAYERS

- Pray God grants safety to partners as they drive long distances on hazardous roads.
- Pray projects are not delayed when key personnel experience vehicle breakdowns.
- Pray generous donors will continue to contribute to the vehicle fund.
