### Old Testament Translation

Because of your gifts, draft portions of several Old Testament books will soon be available to Bandi speakers. Churches will use these materials to provide congregations with a fuller picture of God's relationship to His people.

Meeting this goal was not without challenges. Work was interrupted by COVID-19 and other illnesses, internet issues and unreliable electricity. To address this, the Bible Society has decided to recruit more translation staff. Because staff works from home, they will receive assistance to install solar panels to provide uninterrupted power.

As the translators get deeper into the translation process, they become more proficient at identifying discrepancies and potential issues. As a result, the Bandi Old Testament promises to be a high quality translation that will—along with the Bandi New Testament—provide the complete account of God's plan for salvation.
