## **Seminary Translation Training**

### **PROGRESS**

- Third year students excelled during their translation internships.
- Interest in the program continues to grow among potential students and Bible translation organizations.

### **PRAYERS**

- Give praise for the students in the Bible translation program and a successful start for the new semester.
- Pray that construction on the new seminary building will stay on schedule.
- Pray for peace and stability throughout the country.

Thank you for supporting Mekane Yesus Seminary translation training. This dynamic program is now entering its fourth year, preparing future pastors with translation skills for service in Ethiopia and beyond. The program is on schedule to graduate its first class in May.

This summer, a beginning Bible translation program was held with 21 students. Students from the class of 2022 gained valuable experience through translation internships in various locations. The first semester of 2021 began on schedule, with students from the class of 2024 receiving personal computers to assist them with their studies.

In August, heavy rains caused a devastating and deadly flood on the seminary campus. Classes were suspended for three weeks as people dealt with their losses. Please pray as staff, students, and leadership move forward. All remain committed to bringing God's Word to the people of Ethiopia.
