Full Bible Translation

PROGRESS

- Drafted 54% of the hymn book and liturgy
- 2 Kings 5 checked by community tester
- Updated New Testament and 60% of Old Testament being prepared for printing and distribution

PRAYERS

- Pray for safe travel of translators in the U.S. to visit the Middle East for community testing.
- Praise God for the upcoming printing.
- Pray Scripture materials are well-received by the Assyrian community.

Assyrians living amid turmoil in the Middle East need the God's Word in their heart language to heal and restore their hearts. Aramaic Bible Translation (ABT) works alongside native Assyrians, encouraging participation in all aspects of the translation process.

Paratext, a Bible translation software, allows translators to collaborate on important details including:

- Characters
- Punctuation
- Repeated words
- Missing titles
- Chapter/verse numbers
- Quotation marks

The last printing of 7,000 New Testaments is almost completely distributed! The upcoming printing will include an updated New Testament and about 60% of the Old Testament. This translation will also be put on the Scripture Earth and You Version apps. Your gifts and support made this possible! Thank you.
