DEEPER ENGAGEMENT

update: JULY 2022

REGION Southeast Asia PARTNER MSEAG POPULATION 18,000

go.LBT.org/nola

NOLA

PROGRESS

- 21 Genesis lessons translated into the national language
- 21 Genesis lessons recorded for audio
- Team members trained in photography and video through the organization Project Video

PRAYERS

- A community contact suffers from a progressive disease. Pray for his good health and for God to provide strength.
- Pray for open doors to interact with two minority language communities within the scope of this project.
- Praise God for two potential linguistic students.

Expansion Project

Barriers for interacting with God's Word are removed through Scripture engagement efforts. People groups which speak undocumented languages require survey of the languages and a careful analysis of the ways their language intertwines with society. Workers need prayer, support, and time to build community awareness and support for a project that meets their Scripture engagement needs.

The NOLA project has endured challenging setbacks. But God provided for the NOLA team- a linguistics student who is completing a thesis on a similar language and an aid worker interested in taking linguistics courses.

The two language communities in the NOLA project have never experienced God's Word in their heart language. Linguistic students will accelerate progress in gathering data about these languages. Your gifts and prayers are vital for making progress. Thank you.
