Ministry Technology Fund

PROGRESS

- Projector, 4 speaker & mic combos, projector screen, 2 power banks, and 2 lavalier microphones for Nigeria team
- Six computers for Subula project
- Laptops for Dhirayta and Bible Translation office in Ethiopia
- Four computers for TISLL
- Laptop for new missionary Rev. Tim Schulte

PRAYERS

- Pray for translation teams as they learn how to use new technology.
- Pray for God to equip local leaders with enthusiasm to learn new skills.
- Praise for technology blessing the work of translation teams.

Thank you for supporting the ministry technology fund. Your generosity and prayers are a blessing to many projects – over ten computers and laptops were distributed to various translation projects! Updated and working technology is vital to keeping translation projects on schedule.

The Nigeria team received new projectors and microphones to make communication possible.

Rev. Tim Schulte also received a new laptop to assist with preparations for his first assignment. His Lutheran Bible Translators pre-field training takes full advantage of the blessings available through technology:

1. Online courses from Dallas International University
2. Self-paced learning through the LBT Learning Management System modules online
3. Access to an internal social media platform to discuss training resources with other LBT missionaries
