Thank you for supporting the international partner scholarship fund. You are equipping local partners to lead Bible translation, literacy, and Scripture engagement by getting the academic credentials or practical experience necessary.

Rev. Kierien Ayugha's father translated the Bokyi Bible in the 1970s. "I respect my father a lot. I thought, if my father is involved in Bible translation, that will be something important." Now, Kierien is seeking a PhD in Narrative Discourse Analysis.

"What my research is about is to make sure the message of the Bible is clear to my people...if it is not, people will not use it." Rev. Kierien's PhD will help him invest in the lives of the Bible translation students at TCNN as he teaches linguistics and Bible translation principles. Your support makes this valuable education possible.
